PROFESSIONAL SUMMARY

Mechanical Engineering student at Old Dominion University with hands-on experience in engineering project leadership, technical operations, and student governance. Selected as an AWS Global University Program Representative driving campus outreach and AWS Builder Center adoption. Focused on engineering systems, AI integration into physical systems, and product development.

EDUCATION

Old Dominion University

Norfolk, VA

Bachelor of Science in Mechanical Engineering | Expected May 2029

EXPERIENCE

AWS Global University Program Representative

Fall 2026

Amazon Web Services

- Selected to represent AWS across campus through peer-to-peer outreach, presentations, tabling events, and digital content.
- Driving toward a target of 500 AWS Builder Center signups via strategic student engagement and event activation.
- Delivering 4+ student-org presentations, 4+ tabling events, 14+ class announcements, and 24+ content pieces, with weekly activity reporting.

Access Control Officer

June 2026 – Present

Sitemetric

- Manage site access control operations within a technology campus environment.
- Monitor entry procedures, verify credentials, and maintain secure, organized site flow.
- Coordinate with staff, visitors, and team members to support daily operations.

Delivery Station Associate

Summer 2025

Amazon (DV3)

- Supported high-volume delivery station operations with focus on accuracy, pace, and reliability.
- Executed warehouse processes while consistently meeting daily operational targets.
- Built experience in logistics, safety standards, and time-sensitive team execution.

Host / Busser / Cook

2024 – May 2025

Red Robin

- Supported front- and back-of-house operations in a high-volume service environment, adapting across multiple roles.
- Maintained service quality, guest flow, and team communication under pressure.

LEADERSHIP

Incoming Treasurer

2026

SUMMIT, Old Dominion University

- Selected to manage organizational budgeting and financial operations for a student leadership organization.

Student Government Representative — College of Business

Spring 2026

Old Dominion University

- Elected and appointed to represent the College of Business student body in university governance.

Co-Facilitator

Spring 2026

SUMMIT, Old Dominion University

- Co-led a general body session on the social construction of race and Pan-African intellectual history — among the first freshmen to facilitate.

President, Black Student Union

2024 – 2025

Massaponax High School

- Led a 50+ member organization, directing meetings, planning, and community engagement.

PROJECTS

Quadcopter Drone Build — Airframe Lead

2026

Old Dominion University

- Led the airframe workstream on a 4-person engineering team, owning structural design and mechanical integration.
- Coordinated across power, avionics/control, and software/integration workstreams to finalize build direction and component selection.
- Applied system-level design thinking to balance weight, structure, and component layout.

AxiomAI — AI Automation Concept

- Designed an AI-driven outreach and automation system using a stack including Claude API, n8n, and email automation tooling.
- Connected AI capabilities to real user workflows for productivity and lead generation.

SKILLS

Engineering & Design: AutoCAD, Inkscape, system-level design, technical documentation

AI & Automation: Claude API, n8n, Make, prompt engineering, workflow automation

Operations: Access control, logistics, event execution, public speaking

Tools: Notion, Microsoft Office, Google Workspace, GitHub
